

## Giant Ash Tree Removal & Testimonial

A huge thanks you for Kevin and his team who did an a job on disposing of the giant Ash tree in my garden.

It was a very scary time when I discovered the Ash tree which had a Waverley BC tree preservation order on it was was rotten at the base.

Kevin visited very quickly and made assessment that it needed to come down immediately as it was dangerous. Making matters worse the tree was leaning towards the house. Kevin contacted the Council and within a matter of days Waverley had visited and gave a 5 day order and permission for the to come down.

I cannot thank Kevin and his team including his son Paul enough for the efficient professional way the tree was taken down over 3 days. Paul particularly who had nerves of steel, skilfully climbed and

dismantled the tree piece by piece. Everything was cut up and walked off site leaving my garden beautifully cared for.

I am so pleased and grateful to you all. I can now sleep at night.

Lots of love

Michelle xxx
